

**Professor Yiheng Tu**

Professor, Institute of Psychology  
Chinese Academy of Sciences

Professor Yiheng Tu obtained his PhD from The University of Hong Kong in 2016. Following that, he completed his postdoctoral training and became a faculty member at Massachusetts General Hospital and Harvard Medical School. Currently, he is a Professor at the Institute of Psychology, Chinese Academy of Sciences.

Professor Tu's laboratory investigates the neural representation and modulation of pain using brain imaging, computational modeling, and neural engineering techniques. His research findings have been published in journals including *Nature Human Behaviour* (2023), *Nature Communications* (2020), *PNAS* (2023, 2021, 2019), *Molecular Psychiatry* (2021), and *Neurology* (2020, 2019).

Professor Tu is a recipient of the National Excellent Young Scientist Award from the National Natural Science Foundation, the Hundred-talent program from the Chinese Academy of Sciences, and the sole nominee of the 2024 International Union of Psychological Science Young Investigator Award from China. He has been supported by funding sources including China's Brain Project and the National Natural Science Foundation.
