

**Dr Peter Martin**

Associate Professor in Biostatistics and Psychological Methods  
Department of Primary Care and Population Health  
University College London

**Biography**

Dr Peter Martin is Associate Professor in Biostatistics and Psychological Methods in the Department of Primary Care and Population Health at University College London. Being a statistician, he gets to collaborate with fellow researchers from many disciplines, including psychology, sociology, medicine, health care, and epidemiology. He has a particular interest in mental health and psychotherapy research. Dr Martin teaches statistics and research methods since 2004. Within the Institute of Epidemiology and Healthcare, he co-led the MSc modules Regression Modelling and Advanced Statistical Modelling. In 2021, he published two introductory statistics textbooks that cover linear, logistic, and count regression models and over 50 peer-reviewed academic journal articles.
